<i>Introduction</i>	xv
Chapter 1: Embryonic Stem Cell Research: An Overview	1
1.1. Introduction	1
1.2. Biotechnology	2
1.2.1. Old and New Biotechnology	3
1.2.2. Various Areas of Biotechnology	3
1.2.2.1. Industrial Biotechnology	4
1.2.2.2. Animal Biotechnology	4
1.2.2.3. Environmental Biotechnology	5
1.2.2.4. Agricultural Biotechnology	5
1.2.2.5. Medical Biotechnology	6
1.2.3. New Trends in Biotechnology	7
1.2.4. Biotechnology in the Field of Health Care	8
1.2.4.1. Prevention of Diseases	8
1.2.4.2. Diagnosis of Diseases	9
1.2.4.3. Detection of Genetic Diseases	9
1.2.4.4. Treatment of Disease	10
1.2.4.5. Gene Therapy	11
1.2.4.6. Designing of Drugs	13
1.2.5. Biotechnological Challenges in the New Millennium	13
1.3. Embryonic Stem Cell Research	14
1.3.1. Embryology and Embryo Technology	15
1.3.2. Stem Cell Research	15
1.3.2.1. Stem Cells	16
1.3.2.2. ESC	18
1.3.2.3. Totipotency, Pluripotency and Multipotency	18
1.3.2.4. Sources of Stem Cells	19

1.3.3.	Science behind ESC	20
1.3.3.1.	Gametogenesis	20
1.3.3.2.	Fertilization	21
1.3.3.3.	Cleavage and Implantation	22
1.3.3.4.	Derivation of Embryonic Stem Cell	22
1.3.4.	Developments of Human Embryonic Stem Cell Research	24
1.3.5.	Alternative Sources for Embryonic Stem Cell	25
1.3.5.1.	Pluripotent Stem Cells Derived from Biological Artifacts	26
1.3.5.2.	Altered Nuclear Transfer (ANT) and Somatic Cell Nuclear Transfer (SCNT)	26
1.3.5.3.	Parthenogenesis and Androgenesis	27
1.3.5.4.	Stem Cells from Dead Embryos	28
1.3.5.5.	Pluripotent Stem Cells via Blastomere Extraction from Living Embryos	29
1.3.5.6.	Adult Stem Cells	30
1.3.6.	Similarities and Differences between Embryonic Stem Cell and Adult Stem Cells	33
1.3.7.	Stem Cell Research and Applications	34
1.3.7.1.	Developing New Drugs	34
1.3.7.2.	Repairing Damaged Organs	35
1.3.7.3.	Nervous System Diseases	36
1.3.7.4.	Stem Cell Research for Parkinson's Disease	37
1.3.7.5.	Stem Cells and Spinal Cord Injuries	37
1.3.7.6.	Stem Cells and Diabetes	37
1.3.7.7.	Stem Cells and the Heart	38
1.3.7.8.	Transplantation Therapies	38
1.3.7.9.	Therapeutic Cloning	39
1.3.7.10.	Cancer and Immune Diseases	39
1.3.8.	Stem Cell Research in India	40
1.3.9.	Controversies around the Stem Cell Research	43
1.4.	Conclusion	44
Chapter 2:	Ethical Issues in Embryonic Stem Cell Research	47
2.1.	Introduction	47
2.2.	Ethical Issues Related with the Beginning of Human Life	48
2.2.1.	Philosophical View of the Beginning of Human Life	48
2.2.1.1.	Platonic View	49
2.2.1.2.	Aristotelian View	51
2.2.1.3.	Self-Consciousness: Contemporary Philosophical Stand on the Beginning of Human Life	51

2.2.2.	Scientific View of the Beginning of Human Life	52
2.2.2.1.	Metabolic View	54
2.2.2.2.	Genetic View	55
2.2.2.3.	Embryological View	55
2.2.2.4.	Neurological View	56
2.2.2.5.	Ecological / Technological View	57
2.2.3.	Christian View of the Beginning of Human Life	58
2.3.	Embryonic Stem Cell Research and Human Dignity	62
2.3.1.	Meaning and Significance of Human Dignity	62
2.3.2.	Human Dignity and Human Rights	65
2.3.3.	Dignity of the Embryo: Different Theories	68
2.3.3.1.	Embryos Have the Status of Mere Body Parts	68
2.3.3.2.	Embryos Have Status as Human Beings	69
2.3.3.3.	Embryos Have Status as Potential Persons	70
2.3.3.4.	Embryos Have Status as Human Persons	71
2.3.3.5.	Embryos Have Status as Divine Creations	72
2.3.3.6.	Embryos Have Status as Human Life with Intrinsic Value	73
2.3.3.7.	Embryonic Dignity and Embryonic Stem Cell Research	74
2.4.	Embryonic Stem Cell Research and Quality of Life	76
2.4.1.	Embryos Have Quality	76
2.4.2.	Embryos Have Sanctity	78
2.4.3.	Genetic Studies and the Exploitation of Women	81
2.4.4.	Sanctity of Life and the Commercialization of Embryonic Stem Cell	83
2.4.5.	Sanctity of Life and the Conflict of Interest	84
2.4.6.	Sanctity of Life and the Unequal Biological Access	86
2.4.7.	Sanctity of Life and the Production of Many Embryos	87
2.4.8.	Sanctity of Life and Abortion	88
2.5.	Issues Related with the Purpose of the Creation of Embryo	90
2.6.	Conclusion	93
Chapter 3: Human Life: An Orthodox Perspective		95
3.1.	Introduction	95
3.2.	Development of Orthodox Theology	96
3.2.1.	Sacred Scripture	97
3.2.2.	Sacred Tradition	98
3.2.3.	The Catholic Consciousness of the Church	99
3.2.4.	Theology and Liturgical Life of the Church	100
3.3.	Orthodox Understanding of Human Life	101
3.3.1.	Human Being as the Crown of Creation	101
3.3.1.1.	Human Being as Microcosm	102

3.3.1.2. Human Being as the Mediator	103
3.3.2. Constitution of Human Beings	104
3.3.2.1. The Body	104
3.3.2.2. The Soul	105
3.3.2.3. Origin of Human Soul	106
3.3.2.4. Man as Body and Soul	109
3.3.3. The Sacredness and Sanctity of Human Life	114
3.4. Procreation and Beginning of Human Life	116
3.4.1. Marriage and Sexual Relation	116
3.4.2. Beginning of Human Life and Status of the Embryo	118
3.4.3. The Ethical Rights of the Embryo	122
3.5. Human Being as the Image and Likeness of God	124
3.5.1. Basis of the Concept of Image of God	124
3.5.2. Human Being as an Image of the Archetype: Image of the Image	126
3.5.3. The Human Existence and Doctrine of the Divine Image	127
3.5.4. Image of God and Human Birth	128
3.5.5. Image of God and Psychosomatic Structure of the Human Being	130
3.5.6. Image of God and Human Dignity	132
3.6. <i>Theosis</i> : The Ultimate Aim of Life	133
3.7. Life as a Perpetual Growth: An Orthodox Understanding of Death	135
3.8. Conclusion	136
Chapter 4: Embryonic Stem Cell Research: An Orthodox Understanding	139
4.1. Introduction	139
4.2. Orthodox Church and Health Care	140
4.3. Orthodox Understanding of Bioethics	143
4.4. Orthodox View on Embryonic Stem Cell Research	145
4.4.1. Genetic Engineering: The Manipulation of Human Life	146
4.4.2. Stem Cell Research and Beginning of Human Life	148
4.4.3. Embryonic Stem Cell Research and Sacredness of Life	150
4.4.4. Embryonic Stem Cell Research and Dignity of Life	152
4.4.4.1. Embryo Patent and Dignity of Embryo	155
4.4.4.2. Embryo Freezing and Disposing	157
4.4.5. Embryonic Stem Cell Research Involves Killing	158
4.4.6. Embryonic Stem Cell Research and Therapeutic Cloning	160
4.4.7. Creating Embryos for Research Purposes	164
4.4.8. Embryonic Stem Cell Research and Informed Consent	166
4.4.9. Embryonic Stem Cell Research and Commercialisation of Body Parts	168

4.4.10. Embryonic Stem Cell Research and Exploitation of Women	170
4.4.11. Embryonic Stem Cell Research and Quality of Life	171
4.4.12. Embryonic Stem Cell Research, Social Justice and Allocation of Resources	173
4.5. Conclusion	176
<i>General Conclusion</i>	179
<i>Glossary</i>	185
<i>Bibliography</i>	191
