Foreword xiii
Preface xv
Acknowledgement xvii
List of Abbreviations xix
Introduction xxi
1. The Prevalence of Mental Disorders xxii
2. Family Caregiving in Mental Illness: A Comprehensive View xxiii
3. Importance of the Study xxix
4. Hypothesis xxx
5. Method of Investigation xxx
6. Structure of the Book xxxv

Chapter 1: Historical Review on Mental Illness and Families 1
Introduction 1
1. Conceptual Definition of Mental Disorders/Mental Illness 2
2. Major Traditions and Theories on Causes and Treatment Approaches of Mental Disorders 3
2.1. Origins of Magico-Spiritualistic Tradition 3
2.2. Hippocrates and the Naturalistic Tradition 4
2.3. Christianity and the Re-emergence of the Spiritualistic Tradition 6
2.4. The Renaissance and the Renewal of Naturalistic View of Mental Illness 7
2.5. The Foundation of Neuropathology and Psychology 9
2.6. Psychodynamic Approach 9
2.7. Behavioural and Cognitive Approach 11
2.8. The Family Systems Approach 13
2.8.1. The Schizophrenogenic Mother 14
2.8.2. Double Bind 14

2.8.3. Marital Schism and Marital Skew 14
2.8.4. Pseudo Mutuality/Transactional Thought Disorder 15
2.9. The Biological Approach 16
2.10. The Socio-Cultural Approach 17
3. Development in Treatment and Care of People with Mental Illness 21
3.1. Family Care in the Community 21
3.2. Humanistic Care 23
3.3. Asylum Care 23
3.4. Deinstitutionalization and Community Care 25
4. Psychiatric Treatment and Care of Mental Illness and Families: An Indian Scenario 27
5. Treatment Approaches and Care of Mental Illness in Nagaland 30
5.1. Naga Cultural/Religious Beliefs on Health and Sickness and Treatment Approach 31
5.2. Contemporary Charismatic Faith Healers 32
5.3. Psychiatric Treatment and Care for People with Mental Illness 34
Summary 36

Chapter 2: Understanding Schizophrenia and Mood Disorders: A Clinical Review 39
Introduction 39
1. Schizophrenia 39
1.1. Prevalence 41
1.2. Clinical Symptoms and its Consequences 41
1.3. Causes and Risk Factors 43
1.3.1. Heredity 43
1.3.2. Prenatal and Perinatal Influences 44
1.3.3. Brain Chemistry and Structure 44
1.3.4. Environmental Factors 45
1.3.5. Substance Use 46
1.4. Diagnostic Criteria 46
1.5. Treatment and Management 47
1.5.1. Medication 47
1.5.2. Psychosocial and Programmatic Intervention 48
1.6. Prognosis 48
2. Mood Disorders 49
2.1. Depressive Disorders/Major Depressive Disorders 50
2.1.1. Prevalence 51
2.1.2. Clinical Symptoms and its Consequences 51
2.1.3. Causes and Risk Factors 53
2.1.3.1. Temperamental 53
2.1.3.2. Environmental 53

2.1.3.3. Genetic and Physiological 53
2.1.4. Diagnostic Criteria 53
2.1.5. Treatment and Management 54
2.1.5.1. Medication 54
2.1.5.2. Electroconvulsive Therapy (ECT) 54
2.1.5.3. Psychotherapy 55
2.1.5.4. Social Support 55
2.1.6. Prognosis 56
2.2. Bipolar Disorders 56
2.2.1. Prevalence 57
2.2.2. Clinical Symptoms and its Consequences 57
2.2.3. Causes and Risk Factors 60
2.2.3.1. Genetic and Physiological 60
2.2.3.2. Environmental 60
2.2.4. Diagnostic Criteria 61
2.2.5. Treatment and Management 64
2.2.5.1. Medication 64
2.2.5.2. Psychosocial Interventions 64
2.2.6. Prognosis 65
Summary 65

Chapter 3: Theoretical Appraisal of Family Caregiving in Mental Illness 67
Introduction 67
1. Experiential Impact of Mental Illness on Family Caregivers 67
1.1. Understanding the Concept of Caregiver Burden 68
1.1.1. Dimension of Burden-Objective and Subjective Burden 69
1.1.1.1. Economic/Financial Burden 71
1.1.1.2. Taking Responsibility 73
1.1.1.3. Social Relationship and Social Support 73
1.1.1.4. Patients' Symptoms and Behaviour 75
1.1.1.5. Stigma 77
1.2. Wellbeing in Family Caregivers 78
2. Theory of Coping 79
2.1. Coping-Process Oriented 80
2.2. The Function of Appraisals in Coping 80
2.3. Patterns/Ways of Coping 81
2.3.1. Problem Focused Coping 81
2.3.2. Emotion-Focused Coping 83
2.3.3. Avoidance Focused Coping 84
2.3.4. Religious Focused Coping 85
2.4. Correlates of Coping 86
2.5. Coping Resources 87

3. Models of Family Caregivers' Coping 87
3.1. Catastrophic Stress Model 88
3.2. Crisis/Transition Model 89
3.3. Appraisal and Resiliency Model 91
Summary 93

Chapter 4: Analysis and Interpretation of the Field Research 95
Introduction 95
1. Socio-Demographic Variables of Caregivers and Patients 96
1.1a. Socio-Demographic Variables of Caregivers 96
1.1b. Socio-Demographic Variables of Caregivers 97
1.2a. Socio-Demographic Variables of the Patients 98
1.2b. Demographic Variables of the Patients 100
2. Description of Burden, Coping and Wellbeing of Family Caregivers 101
2.1. Description of Caregivers' Burden, Coping and Wellbeing 101
3. Comparison of Caregivers' Burden, Coping and Wellbeing between the Groups and Socio-Demographic Variables 102
3.1. Comparison of Caregivers' Burden, Coping and Wellbeing between the Groups (CPPT vs. CPNPT) 103
3.2. Comparison of Burden, Coping and Wellbeing w.r.t Caregivers' Gender 104
3.3. Comparison of Caregivers' Burden, Coping and Wellbeing w.r.t. Duration of Care 105
3.4. Comparison of Caregivers' Burden, Coping and Wellbeing w.r.t Relationship with the Patients 106
3.5. Comparison of Caregivers' Burden, Coping and Wellbeing w.r.t Patients' Gender 107
3.6. Comparison of Caregivers' Burden, Coping and Wellbeing w.r.t Patients' Occupation 108
3.7. Comparison of Caregivers' Burden, Coping and Wellbeing w.r.t Patients' Functional Level 109
4. Correlations of Burden and Coping with Socio-demographic Variables of Caregivers and Patients 110
4.1. Correlations between Caregivers' Age, Educational, Monthly Income and Burden 110
4.2. Correlations between Patients' Age, Educational, and Burden 111
4.3. Correlations between Caregivers' Age, Educational, Monthly Income and Coping 111
4.4. Correlations between Patient's Age, Educational, and Coping 112
5. Correlation of Family Caregivers' Burden, Coping and Wellbeing 112
5.1. Correlation of Caregivers' Burden and Wellbeing 112
5.2. Correlation of Burden and Coping 113

6. Queries on Formal Support Systems for People with Mental Illness and Families in the State of Nagaland 114
Conclusion 114

Chapter 5: Discussion on Research Findings and the Tenability of the Research Hypothesis 115

Introduction 115
1. Socio-Demographic Variables of Caregivers and Comparisons between the Groups (CPPT vs. CPNPT) (tables 1a and 1b) 115
   1.1. Area of Residence, Gender, Age, Education and Occupation of Caregivers 116
   1.2. Family Monthly Income 116
   1.3. Family Caregiver Relationship to Patient 116
   1.4. Duration of Care 117
2. Socio-Demographic Variables of Patients and Comparison between the Groups (CPPT vs. CPNPT) (Tables 2a and 2b) 117
   2.1. Gender, Age, and Marital Status 117
   2.2. Education and Occupation 118
   2.3. Diagnosis 118
   2.4. Types of Treatment Undertaken Earlier 118
   2.5. Types of Treatment at Present 119
   2.6. Present Functional Level 120
3. Description and Comparison of Family Caregivers' Burden, Coping and Wellbeing between the Groups (CPPT vs. CPNPT) (Tables 3 and 4) 121
   3.1. Burden and Wellbeing of Caregivers 121
   3.2. Coping Patterns of Caregivers 122
4. Socio-Demographic Variables of Patients and Caregivers and their Influence on Burden and Coping 125
   4.1. Patient Gender 125
   4.2. Patient Occupation 125
   4.3. Patient Functional Level 125
   4.4. Caregiver Gender 126
   4.5. Caregiver's Relationship to Patient 127
   4.6. Duration of Care 127
5. Correlation of Caregivers' Burden, Wellbeing and Coping 128
   5.1. Correlation of Caregivers' Burden and Wellbeing 128
   5.2. Correlation of Caregivers' Burden and Coping 129
6. Formal Psychosocial Support, State Government Aid and the Church Ministry for Families with Mental Illness 130
Summary 130

Chapter 6: Towards a Creative Integrative Approach of Pastoral Care and Counselling and Family Intervention Models 133
Introduction 133
1. Towards a Theology of Pastoral Care and Counselling 133
1.1. Meaning and Purpose of Pastoral Care and Counselling 133
1.2. Theological Method and Practice in Pastoral Care and Counselling 136
1.3. 'Presence and Hope' as Theological Framework in Pastoral Care and Counselling for People with Mental Illness and Families 137
2. Locating the Role of Pastoral Care and Counselling for Families of People with Mental Illness: A Creative Integrative Approach 139
2.1. Healing 140
2.2. Sustaining 144
2.3. Guiding and Nurturing 148
2.4. Reconciling 150
2.5. Liberating and Empowering 152
3. Family Intervention Models 153
3.1. Creative Family Oriented Educational Model 154
3.2. Creative Supportive Model 156
3.3. Creative Collaboration Model 158
3.4. Creative Family Enrichment Model 159
4. Important Recommendations/Suggestions 159
4.1. Suggestions to the Church 159
4.1.1. Bible Study and Seminars 159
4.1.2. Recruitment of Committed Professional Counsellors 160
4.1.3. Religious Based Care or Rehabilitation Centre 160
4.2. Suggestion for the Community 161
4.2.1. Inclusive Indigenous Communal Practice of Care 161
4.3. Suggestions for Mental Health Authority in the State 161
4.3.1. Community Mental Health Service 161
4.3.2. Awareness Programmes on Prevention, Intervention and De-Stigmatization 161
4.4. Suggestions for Theological Community 161
4.5. Suggestion for Further Research 162
Summary 162
