Foreword xv
General Introduction xxi

Chapter 1: The Contemporary Need for Science-Religion Dialogue 1
Introduction 1
1.1. The Different Departments of Science 2
1.2. Interaction between Science and Religion: Some Preliminary Considerations 3
1.3. The Diversity of Interaction 5
1.4. Science from Religion and Vice-Versa 11
1.4.1. The So-Called Conflict between Science and Religion 13
1.4.2. Considering Science and Religion in the Scientific Revolution 16
1.4.3. The Separation of Science from Religion to Fusion 17
1.5. Delving into the Divine Activity in the Mechanical Universe 18
1.5.1. A Scientific Cosmology 18
1.5.2. The Impact of Science and Religion in the Twentieth Century 22
1.5.3. The Church's Recent Response to Science-Religion Dialogue 26
1.6. The Big Questions in Science 28
1.7. The Role of Philosophy of Science 30
1.8. Critical Comments 31
Conclusion 33

Chapter 2: The Significance of Biological Evolution 35
Introduction 35
2.1. The Concept of Evolution 37
2.1.1. Factors of Evolution 38
2.1.2. Interpreting Evolution as a Scientific Data 39

2.2. Science of Evolution 40
2.2.1. The Fossil Record 41
2.2.2. Chemical and Anatomical Similarities (Homologies) 42
2.2.3. Geographic Distributions of Related Species in Time and Space 43
2.2.4. Genetic Changes over Generation 44
2.2.5. Modern Synthetic Theory of Evolution 46
2.3. Interpreting Theological/Scriptural Data 47
2.4. Pre-Darwinian Evolution 51
2.4.1. Gregory of Nyssa (331-396) 54
2.4.2. St. Augustine (353-430) 54
2.4.3. The Scholastic Period 55
2.4.4. Later Period 56
2.4.5. Islamic Philosophy and Struggle for Existence 58
2.4.6. Christian Philosophy and the Great Chain of Being 62
2.4.7. The Theologians and Natural Philosophers 63
2.5. Earth's Evolution and the Origin of Life 66
2.5.1. The Precambrian Aeon 66
2.5.2. The Hadean Aeon 70
2.5.3. The Archean Aeon 71
2.5.4. The Origin of Life 75
2.5.5. Oxygen (Breath of life) in the Atmosphere 77
2.6. Charles Robert Darwin (1809-1882) 84
2.6.1. His Father's Influence on Young Darwin 84
2.6.2. His Beagle Voyage 85
2.6.3. Life after the Beagle Voyage 85
2.6.4. His Works 87
2.6.5. His Last Years 87
2.7. Darwinism 88
2.7.1. The Origin of Humans 91
2.7.2. The Early Human Migration 91
2.8. Implications of Evolution 104
2.9. What We Owe to Darwin 105
2.10. Critical Comments 106
Conclusion 108

Chapter 3: The Cosmological Evolution Starting with the Big Bang 111
Introduction 111
3.1. Cosmology 112
3.1.1. History of Cosmology and Astronomy 112
3.1.2. The Milky Way 115
3.2. The Origin of the Universe and the Big Bang 120

3.2.1. The Expanding Universe 121
3.2.2. Georges Henri Joseph Lemaître 123
3.3. Critical Comments 133
Conclusion 135

Chapter 4: The Causes for Extinction and Enhancement of Life 139
Introduction 139
4.1. Mass Extinction 140
4.2. Human-Induced Extinctions 141
4.3. The 'Sixth Mass Extinction' 142
4.4. Weapons of Mass Destruction (WMD) 143
4.4.1. Nuclear Weapons 143
4.4.2. Chemical Weapons 144
4.4.3. Biological Weapons 145
4.5. What Could be the Next Weapon of Mass Destruction? 149
4.5.1. At Security Council, Ban Calls for Eradicating Weapons of Mass Destruction 'Once and For All' 149
4.5.2. Biological Attack Could be Much More Devastating 150
4.5.3. People also be Protected from Online Attacks 151
4.6. Enhancement of Humanity and the Environment 152
4.6.1. Nanotechnology 154
4.6.2. Biotechnology 161
4.6.3. Genetic Engineering 163
4.6.4. Human Genome Project 171
4.7. Critical Comments 176
Conclusion 177

Chapter 5: Our Spiritual Evolution and Destiny: A Teilhardian Vision 179
Introduction 179
5.1. Pierre Teilhard de Chardin's Life and Work 181
5.1.1. Teilhard's Work 181
5.1.2. Teilhardian Concept of Evolution 183
5.1.3. Earth's Evolution 184
5.2. Teilhardian Evolution 185
5.2.1. The Beginning: Protomatter 186
5.2.2. The Evolution of Matter 186
5.3. Teilhard de Chardin and Charles Darwin 188
5.3.1. From Noosphere to Omega Point: The Actuality of Teilhard's Vision 190
5.3.2. Noosphere 190
5.3.3. Prophets of Internet, Information and Communication Technologies 191

5.3.4. Noosphere in the Contemporary World 192
5.3.5. Noosphere in Science and Religion 193
5.4. Pierre Teilhard de Chardin and Albert Einstein 195
5.5. The Challenge of Teilhard's Vision to the Contemporary World 197
5.5.1. A World in Crisis: Where are We Going? 198
5.5.2. Spiritual Resources for the Future Well-Being of People and the Planet 203
5.5.3. Teilhard and a Global Outlook 207
5.6. Science-Religion Dialogue: A Call for Unity 212
5.7. A Cosmic Christology 213
5.8. Critical Comments 216
Conclusion 221

Chapter 6: Our Cosmic and Spiritual Destiny: The Unfolding Future 223
Introduction 223
6.1. Humanity at the Threshold of Destruction 224
6.2. Future of Evolving Humanity to the Omega (Cosmic and Spiritual Evolution) 225
6.2.1. Evolution, a Convergence 226
6.2.2. Possible Choices 227
6.2.3. Evolution towards the Divine 228
6.2.4. A Harmonious Understanding of Faith and Science from the Worldview of Some Great Saints 230
6.2.5. Directionality of the Universe 231
6.2.6. Spiritual Evolution as Cosmic Evolution 232
6.3. Interrelatedness of Everything 234
6.4. Personal Reflection 237
6.5. Critical Comments 239
Conclusion 241

General Conclusion 245
